

Summer Chromebook Expectations

Newfane CSD students in grades 3-12 have the great opportunity to utilize a Chromebook for learning during the school year. To encourage our students to take advantage of ongoing educational opportunities, students in grades 5-11 will be allowed to keep their Chromebooks at home during the summer months. To assist you, the district is providing the following tips for summer Chromebook use:

Care

- Keep Chromebooks away from pets or young children.
- Avoid heat and direct sunlight.
- Avoid liquids-beware of wet swimsuits and towels.
- Keep Chromebooks plugged into a surge protector when they are not in use.
- Lack of charging may result in damage to the battery. The cost of a replacement charger (\$45.00) is the responsibility of the student/guardian.
- Chromebook must be turned on for at least 30 minutes once a week in order to receive necessary updates.

Monitoring Activity

- Families should continue to monitor use at home by checking the Chromebook browser and observing student use.
- For your security, your password should not be shared. Also, a reminder this is a school device, not a personal device; please do not use anyone else's account on your school Chromebook.
- GoGuardian monitoring software and accessibility will remain active during the summer.
- For further questions, review the district's 1:1 technology information available via the [NewfaneTechnology Services webpage](#)..

Repairs/Damages

- Chromebooks that need repairs may be brought to the District Central Services (6273 Charlotteville Road, Newfane, NY 14108) between 9:00 A.M. and 3:00 P.M. Monday – Thursday except for holidays. A repair form should be filled out prior to bringing the broken or damaged Chromebook to the District Office, and is available [here](#). Please call Mr. Jeff Anstett first to coordinate the drop off.
- The parent or guardian will be contacted when the Chromebook is ready to be picked up.
- A letter will be sent home to the parent if there are any fees that must be paid before repairs are made.
- Broken chargers must be returned.
- DO NOT attempt to do repairs on your own.
