Placement and Promotion:

Grade promotion and placement of students shall be at the discretion of the school administration and shall be subject to review at any time. Building principals will use multiple measures of student growth including, but not limited to state assessments, as a guide in student promotion and placement decisions. In accordance with Education Law Section 305(47), the District will not make any promotion or placement decisions based solely or primarily on the performance of state administered ELA or mathematics assessments for grades 3 through 8.
